ProQuest MyiLibrary Medical

The most comprehensive range of medical and health e-book titles

www.proquest.co.uk

ProQuest
COMPANY

With a flexible, easy-to-use platform, *MyiLibrary Medical* complements ProQuest's existing medical content in countless ways and offers further choice, value and quality content to our fast-growing health and medical customer base.

Value: multiple simultaneous access options ensures excellent value

Key Titles: over 4,000 individual titles available

Leading Publishers: content from the leading medical publishers is included

Flexibility: purchase individual titles or subscribe to specialist collections

Intuitive: a simple, powerful search platform

Integrated: cross-search MyiLibrary books with ProQuest full-text journal collections

Combining vital information and key journals with broad-breadth coverage gives ProQuest health and medical full-text journal collections their unique value and high quality.

We have now selected to work in partnership with MyiLibrary to offer our growing customer base a spectacular range of health and medical e-books.

MyiLibrary is one of the world's leading e-content hosting platforms with nearly two million patrons regularly accessing some of the most up-to-date and authoritative content available today. Collections include output from many of the world's largest scientific, technical and medical publishers, such as Wiley, Taylor and Francis, Springer, Elsevier and Oxford University Press, as well as unique collections from inter-governmental organisations such as the International Labour Organisation, the World Health Organisation and the World Bank.

'... Four evaluation criteria were finally used... Service and Technical evaluation, Value for Money and Supplier Responsiveness. In addition, the group considered the number of non-embargoed journals on offer. Each criterion again was weighed and fed into the final score. The result was that ProQuest scored highest, by over 15%.'

Extract from article in Health Information and Libraries Journal, 2003, on why ProQuest was chosen over other providers to supply the National Health Service England with full-text journals.

'After selecting a group of potential suppliers, the Core Content Group carefully evaluated the offerings from all the e-book platforms available and concluded that the MyiLibrary platform represented the best choice, offering value for money, excellent content, flexible licensing, reliability and ease of use.'

NHS England on why they selected MyiLibrary to provide medical e-books.

Key titles from the world's leading medical publishers

Working in partnership with MyiLibrary, ProQuest can now bring to you the most comprehensive range of medical, nursing and allied health e-book titles available.

Highlights from the list of prestigious publishers with content available in MyiLibrary includes:

- **Blackwells**
- **Cambridge University Press**
- **Elsevier**
- **McGraw Hill**
- **Oxford University Press**
- **Palgrave**
- **Springer**
- **Taylor & Francis**
- **Wiley**
- **World Health Organisation**

The list of publishers with content available in *MyiLibrary Medical* will continue to grow and new titles are added on a weekly basis.

World Health Organisation e-library

In addition to books from the key medical publishers, *MyiLibrary Medical* also includes the growing World Health Organisation e-library. This evolving collection, updated monthly, covers both past publications and new titles as they are produced.

Perpetual access to 4000 medical book titles

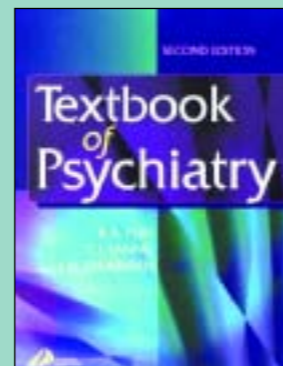

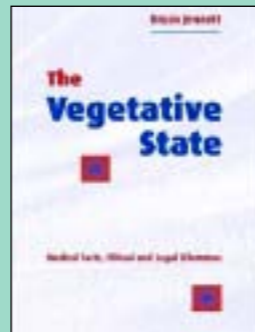

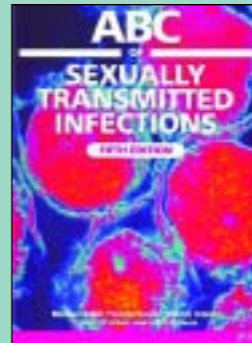

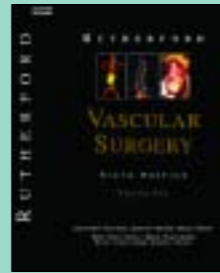

Individual medical and health e-book titles can be purchased individually. A 'rent to buy' option with payment over two years is available. Alternatively, specialist collections are available on annual subscription.

Specialist Collections packages for your library

Comprehensive collections are available on a subscription basis. As with ProQuest journal databases, the collections are kept up to date with new publications and new editions as they are published.

Collections currently available include:

- Mental Health
- Oxford Textbooks
- Oxford Handbooks
- Medical Research
- Clinicians' Choice
- Primary Care
- Psychology
- Nursing and Allied Health

Simple subscription and purchase options

	Perpetual Access	Annual Subscription
Individual e-books	✓	✗
Specialist library collections	✗	✓
Oxford University Press Titles	✗	✓

Please note a small annual web access fee is charged for purchased books to enable you to access these on the MyiLibrary platform.

We also offer two year payment plans for perpetual access titles.

All health and medical disciplines

ProQuest MyiLibrary Medical offers coverage of all medical and health disciplines, including:

- Cancer
- Critical Care
- Dentistry
- Dermatology
- Diabetes
- Nursing
- Ophthalmology
- Paediatrics
- Physiotherapy
- Psychiatry
- Surgery

Key titles

Just as ProQuest full-text journal databases include high impact factor titles and essential materials recommended in the Brandon-Hill and Core Collection content lists, MyiLibrary Medical contains many titles recommended by:

- Doody's Core Titles in the Health Sciences
- Brandon-Hill Lists
- BMA Core Collection (The Hague List)

Please contact us for a copy of our most recent title list.

Value

ProQuest MyiLibrary Medical offers simultaneous users at the book, not the platform, level minimising any risk of users being locked out the system.

Site licence pricing may be negotiated on a case-by-case basis for many titles and collections. Please contact us for more details.

Effortless access

Robust, secure, quick and easy-to-use, the MyiLibrary Medical platform offers a selection of tools and features to ensure you get the most from your e-book collection.

Full text searching

MyiLibrary allows you to browse across all titles, and search by title, author, ISBN, publisher, publication date, subject, keyword or full text.

Copy, paste and print

Copy text and images from all titles into Microsoft Word, Excel and PowerPoint (subject to individual publisher restrictions).

New title alerting

Allowing you to keep up to date with all new titles in your field of interest.

Simultaneous Multi User Access

MyiLibrary is designed to allow simultaneous access for multiple users to the collections.

Exact replication of the print book

Including images, photographs, charts and original pagination.

Note pad

Access a unique note pad allowing you to bookmark individual pages or chapters and copy items including paragraphs and pages into your own documents.

Simple Library Integration Tools

Real-time reporting

Generating real time reports on various aspects of usage such as which titles were viewed, when, and for how long.

MARC records

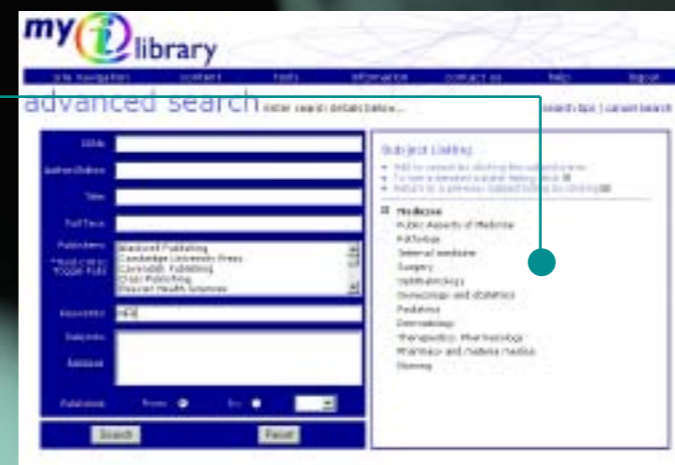

Each title has MARC records that are available allowing access directly to the title from a library OPAC. These MARC records can be upgraded and customised if required.

Multiple Authentication Access

Users can access MyiLibrary via various different authentication methods including Athens, IP address and username and password, allowing global connections around the clock.

Customisation Options

Includes library branding.

Powerful searching with ProQuest journal databases

e-book content in MyiLibrary will soon be able to cross-search with ProQuest's leading health and medical journal databases: *ProQuest Medical Library*, *ProQuest Health and Medical Complete*, *ProQuest Nursing Journals* and *ProQuest Psychology Journals* as well as *ProQuest 5000* packages.

e-book titles are categorised by medical disciplines, making browsing the content simple.

Coming soon! MeSH subject headings from the US National Library of Medicine will be added to the book metadata, enabling more specialist searching.

Cross-search 1500+ journals with 4,000 books

We are adding e-book metadata for all 4,000 titles in MyiLibrary Medical to ProQuest health and medical journal collections. This will give users the power to search books and journals simultaneously. This functionality, combined with the full text searching option, makes this combined book and journal offering one of the most powerful available.
