Lippincott Williams & Wilkins Journal Legacy Archive

Exclusive access to the backfiles—from Volume 1, Issue 1 through final issue, 1999—of 220 journals in medicine, nursing, and healthcare

Archival resources are crucial to the research process, providing a valuable chronology of theories and discoveries that underpin today's healthcare practices and inform future innovations. What are the foundations of current techniques in open heart surgery? How did modern cancer and diabetes treatments evolve?

With the LWW Journal Legacy Archive, you can help researchers answer these questions and more. They'll get immediate access to more than 35,000 issues containing nearly 1 million articles of original research, reviews, case studies, notes, and letters. That's a complete library of **more than 4 million pages** of groundbreaking research available at anytime and from anywhere online.

Plus:

- Seminal research material from Nobel Laureates and other world-renowned scientists
- Pages presented in PDF format, with searchable headers and abstracts
- Integration with your other journal resources in Journals@Ovid
- Clean, easy-to-read text and images, including photos, illustrations, tables, charts, and graphs, produced using multiple state-of-the-art scanning processes
- Searchable with the LWW Total Access collection so you can have simultaneous access to both historical and current content
