LION Premium

LION tomorrow

- LION never stops growing
 - In 2017:
 - seven new FT journals
 - 136,000 new ABELL and MLAIB records
 - over 400 author biographies
 - several new reference works
 - In 2018:
 - 3 AS literature collections straight to LION for all customers; 25,000 works of poetry from the Romantic period (1760s-1840s) further enhancing LION's support for this ever popular topic
 - Over 120 new Companions to Literature volumes from CUP
 - Over 200 18th and 19th Century prose works to fill existing gaps
 - More journals, more reference works...
 - And integration with ProQuest platform

LION Premium

- **LION**
 - 350,000 primary texts represent the essential canon of Anglophone Western Literature
 - no undergraduate can survive without it
- **Black Writing and World Literature Collections**
 - 120,000 works represent the missing pieces from the borders of literature
 - no student can consider their research comprehensive without it.

Portfolio: ExLibris

The screenshot displays the ExLibris website, a ProQuest Company. The top navigation bar includes links for English, Blog, Support, Knowledge Center, Contact Us, Search, and Go to ProQuest.com. The main navigation menu features Products, Services, Community, News & Events, Careers, and About Us. The Products dropdown menu is open, showing three columns of offerings: Library Management (Alma, Unified Management, Analytics, Digital Resources, Open Platform, Community Zone, Collaborative Networks), Discovery (Primo, Content Index, Relevance Ranking, Exploration Services, SFX Link Resolver, Summon, Content Index, Relevance Ranking, Exploration Services, 360 Link), Mobile Campus (campusM, App Tour, Student Engagement, Apps & Portal, System Consolidation, Project Delivery), Research Services (Esploro, RefWorks), Digital Preservation (Rosetta), and Course Resource Lists (Leganto). The background of the website features a large heading 'Make Your Make' and 'Empower Academic with Ex Libris Cloud', along with a graphic of a target and pencils.

New to the VHA?

USC Shoah Foundation's Visual History Archive allows users to search through and view more than 54,000 video testimonies of survivors and witnesses of genocide.

Initially a repository of Holocaust testimony, the Visual History Archive has expanded to include testimonies from the [Armenian Genocide](#) that coincided with World War I, the [1937 Nanjing Massacre](#) in China, the [Cambodian Genocide of 1975-1979](#), the [Guatemalan Genocide of 1978-1983](#), the [1994 Genocide against the Tutsi in Rwanda](#), and the ongoing conflicts in the Central African Republic and South Sudan. It also includes testimonies about contemporary acts of violence against Jews.

In order to integrate testimonies recorded and owned by other organizations into the Visual History Archive, USC Shoah Foundation has initiated the Preserving the Legacy program.

System Requirements

- Windows 7/8 +
- Internet Explorer 9 +
- Firefox 25 +
- Google Chrome 12 +

- Mac OS X 10.6 +
- Safari 5.1.1 +
- Firefox 25 +
- Google Chrome 12 +

Portfolio: New Safari

The screenshot displays the O'Reilly website's 'Learning Paths' section. The top navigation bar includes the O'Reilly logo, a search bar with the placeholder 'Find a solution', a 'Format: All' dropdown, and a 'Search' button. A sidebar on the left contains links for 'Browse', 'Recommended', 'Queue', 'History', 'Topics', 'Tutorials', 'Highlights', 'Settings', 'Support', and 'Sign Out'. A notification banner at the top of the main content area states 'You've got a new homepage experience.' with a 'Learn more' link. The 'Learning Paths' section is titled 'Learn at your own pace with our expert-curated learning paths.' and includes a 'See More' link. Below this, five learning path cards are displayed, each with a book cover image, title, authors, and a brief description. The cards are: 'The Complete Guide to Java EE 8' by Sebastian Daschner, Sekhar Srinivasan, Tilen Faganel, and Neha Gajakos; 'Application Development with Xamarin' by Steven F. Daniel and Neha Gajakos; 'TypeScript: Web Development with TypeScript' by Bartłomiej Potaczek, Tamas Piros, and Neha Gajakos; 'Forensic Analysis of Disk-Based Evidence' by Ric Messier and Courtney Allen; and 'Operating System Forensic Analysis' by Ric Messier and Courtney Allen. Each card also features a 'Packt' logo and a 'Learning Path' icon.
