Co je žádoucí učit studenty?

„Pokud dnešní studenti neuvažují lineárně a učí se (a vyhledávají) formou objevování, nemají být tedy vývoj databází a výuka informační gramotnosti směřovány více na efektivní strategie pro zpřesňování výsledků nežli na sestavování téměř perfektního vyhledávacího dotazu?“

Smysl discovery služby

NE nahradit specializované databáze

ANO

- snížit bariéry pro uživatele, zejména pro nastupující generace
- přivést uživatele zpět ke knihovním zdrojům
- umožnit rychlou orientaci v problematice
- zvýšit návratnost investic do licencovaných zdrojů
- usnadnit práci s neelektronickými sbírkami knihoven

Shrnutí

Trauma, Psychopathology, and Violence: Causes, Causes, Consequences, or Correlates critically examines correlates, consequences, and potential causal relationships involving trauma, psychopathology, and violence. The authors address methodological and theoretical challenges to understanding the interrelationships among trauma, psychopathology, and violence from the perspective of their own research fields. Chapters focus on different types of traumas, traumas occurring at different developmental stages and in different contexts, and the contributions of biological and genetic factors in understanding psychopathology and violence. Each of the chapters offers recommendations for needed research. The book is divided into six topical areas: (1) Setting the context; (2) Biological and genetic factors in understanding trauma, psychopathology and violence; (3) Trauma in childhood and risk of psychopathology and violence; (4) Culture and community context in understanding trauma, psychopathology, and violence; (5) Responses to disasters and terrorism; and (6) Trauma, psychopathology, and violence in the military.

The screenshot shows the University Library Summon search interface. At the top, there's a search bar with the text "library hours" and a "Search" button. To the right of the search bar are links for "Help | About | Feedback" and a language dropdown menu set to "English". Below the search bar, there are radio buttons for "Keep search refinements" and "New search".

The search results section shows "Search Results: Your search for **library hours** returned **3,767,349** results". On the left side, there's a "Refine your search" section with several checkboxes: "Items with full text online", "Limit to articles from scholarly publications, including peer-review", "Exclude Newspaper Articles", and "Add results beyond your library's collection". Below this is a "Content Type" section with a dropdown arrow and a list of content types with their counts: "Any", "Book / eBook (1,965,305)", "Newspaper Article (1,000,332)", "Journal Article (630,182)", "Dissertation/Thesis (76,121)", and "Report (62,720)".

The main search results area displays a result titled "Library Hours" with a green information icon. It lists the library's hours: "Mon-Thurs 8am - 5pm", "Friday 9am - 4pm", and "Sat-Sun Closed". There is a "More" link below the hours. Below this, there's another section titled "Library hours" with a magnifying glass icon. It shows a result from "Concord Monitor, 08/31/2012" with a yellow "online" star icon. The snippet reads: "... Beginning next week, the Penacook Branch **Library** at 3 Merrimack St. will increase its **hours** of operation by opening on Friday afternoons. The branch...". Myocardial Infarction
From Encyclopedia Britannica Online

Myocardial infarction (MI) or acute myocardial infarction (AMI), commonly known as a heart attack, results from the interruption of blood supply to a part of the heart, causing heart cells to die. This is most commonly due to occlusion (blockage) of a coronary artery following the rupture of a vulnerable atherosclerotic plaque, which is... [Read more](#)

Myocardial Infarction
From Encyclopedia Britannica Online
Myocardial infarction (MI) or acute myocardial infarction (AMI), commonly known as a heart attack, results from the interruption of blood supply to a part of the heart, causing heart cells to die. This is most commonly due to occlusion (blockage) of a coronary artery following the rupture of a vulnerable atherosclerotic plaque, which is... [Read more](#)

Shrnutí

Srovnání s konkurencí

- ✓ Rozdílný přístup a strategie
- ✓ Minimum bariér pro uživatele
- ✓ Bezkonkurenční kvalita zpracování dat, Match & Merge
- ✓ Nejrozsáhlejší centrální index
- ✓ Žádné kompromisy – žádná kombinace vyhledávání v indexu s federativním vyhledáváním! 
- ✓ API pro integraci s libovolným uživatelským rozhraním
- ✓ SaaS – žádné další náklady
- ✓ Neustálý agilní vývoj
- ✓ Neutrální přístup k obsahu z různých zdrojů

Jak testovat discovery?

... nedejte se unést tím kolik možností nabízí pokročilé vyhledávání a jak systém zvládá komplikované booleovské dotazy...

... ve skutečnosti – a neberte to zle – nejste pravděpodobně vy tím nejlepším, kdo by měl systém hodnotit...
