***Nursing Education in Video: Second Edition* is the most comprehensive, functional collection of nursing videos available today.** It gives faculty and students anywhere-anytime access to the complete collection of Medcom's highly regarded training videos—over 400 titles. Many are exclusive to Alexander Street and all are delivered on our award-winning platform.

Medcom nursing videos are:

- The highest quality available. They have won more than 50 major awards for excellence, including the prestigious Emmy award.
- Updated to reflect the most current, best practices in the field of nursing.
- Fully compliant with federal regulations from agencies such as OSHA and CMS and fully accredited by the American Nurses Credentialing Center— the gold standard for nursing content accreditation.

"Highly recommended.... Outstanding interface and features."

—CHOICE

"The quality of the video recordings is excellent... The content of *Nursing Education in Video* is current."

—The Journal of the Medical Library Association

Publication details

Nursing Education in Video: Second Edition is an online streaming video collection available to libraries and educational institutions worldwide via subscription or one-time purchase of perpetual rights. No special setup or software is required—all you need is an Internet connection.

Subscribers to *Nursing Education in Video: Second Edition* receive access to more than 400 videos together with new and revised titles added throughout the subscription term.

Purchasers of *Nursing Education in Video: Second Edition* acquire perpetual rights to more than 400 videos, together with all new and revised content added through the end of 2019. This will include at least 40 revised and 10 newly commissioned titles each year.

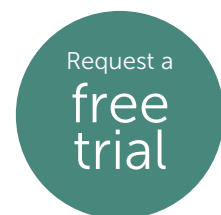

SINGLE TITLES

Individual titles from this collection can be purchased on DVD or streaming at academicvideostore.com
