

Adis Journal Legacy Archive

Ovid

Exclusive Access to Historical Content from 31 Journals and Newsletters in Pharmacology, Disease Management, and Biotechnology

- Provide users with instant online access to more than 3,600 issues—including articles, reviews, notes, case studies, supplements, and letters—dating as far back as 1971
- Combine with current Adis journal content for a continuous research and analysis chronology
- Offer site-wide access with a single, one-time purchase
- Take advantage of OvidSP's powerful search functionality, time-saving workflow tools, and intuitive interface
- Fill content gaps in your electronic holdings in pharmacology and pharmaceutical science
- Free up shelf space and save on Interlibrary loan costs
- Ask your Ovid Account Representative about individual backfiles for each of the 31 journals

Pioneering work in the exploitation of new drug compounds is still highly relevant to anyone involved in drug development and therapy: researchers in industry, physicians and practitioners in a clinical setting, or faculty and students in education.

That's why your institution needs the **Adis Journal Legacy Archive**—a unique source of groundbreaking and seminal research material in drug development, therapy, disease management, and pharmacoeconomics from one of the leading pharmacology and pharmaceutical publishers in the world. Every issue and every article is easily searchable on OvidSP, Ovid's industry-leading precision search and discovery platform.

Why Adis Journal Legacy Archive?

- Available exclusively on Ovid
- Includes more than 150 supplements and 16 predecessor titles
- Most coverage dates begin with the journal's inaugural issue (Volume 1, Issue 1)
- Pages presented in PDF format, with searchable headers and abstracts
- Full integration with your institution's other electronic journal, book, and database holdings
- Clean, easy-to-read text and images, including photos, illustrations, tables, charts, and graphs, produced using multiple state-of-the-art scanning processes
- Journal issue covers and page numbers are prominently displayed on the issues list for easy identification

See page 2 for a complete list of journals that are included in the Adis Journal Legacy Archive.

Think Fast, Search Faster with OvidSP

Designed for speed, simplicity, and precision, OvidSP incorporates new time-saving workflow tools, an intuitive interface, and sophisticated search technology for a simpler, more streamlined search experience.

- Choose from multiple search modes, including Basic Search, with natural language processing, Advanced Ovid Search, and more
- Take advantage of journal eTOCS and AutoAlerts delivered via RSS, search results annotations, flexible search results sorting, inline abstracts, and more
- Use everyday natural language to search seamlessly and retrieve relevance-ranked results
- Search simultaneously across databases, journals, and books
