

# Transfusion Evidence Library

The new **Transfusion Evidence Library** is **the definitive resource** for high-quality evidence-based information on all aspects of **transfusion medicine**.

*We provide our users with:*

- access to randomised controlled trials (RCTs) from 2002 to the present
- congress abstracts of RCTs not available in *Medline*
- selected, good quality systematic reviews from the earliest relevant record to the present
- direct free access to *Open Access* articles
