

A photograph of a farmer wearing a hat and a blue and white shirt, operating a red tractor in a rice field. The field is flooded with water, and there are several white egrets standing in the water. The background shows a lush green forest with palm trees.

CABI Digital Library

**Research and learning in agriculture,
the environment and the applied life sciences**

What is the CABI Digital Library?

The CABI Digital Library is an exciting new platform, launched in 2022, which will showcase all of CABI's content in one convenient location on a modern interface. The new platform offers an enhanced user experience with the ability to quickly and easily search across all subscribed content in one place.

Making CABI Digital Library the key platform for unified discoverability.

One search, more results

CABI Digital Library is the home of CABI's life science content, allowing you to search across all of your subscribed content in one place.

Designed around you

Our new user interface has been designed around the needs of our users offering you an intuitive user experience.

Research on-the-go

CABI Digital Library offers a fully mobile, responsive design allowing you to access content anytime, anywhere.

Discover more

With built-in Search Engine Optimisation (SEO) your CABI content is even more discoverable through search engines such as Google.

Locate more

New and improved search and filter options allow you to quickly and easily locate the most relevant life sciences research content.

Improving lives worldwide

CABI Digital Library is the hub of knowledge and information. Bringing communities together to share knowledge, support International Development and achieve Sustainable Development Goals worldwide.
