

RÖMPP SciCapsules, the Reliable Online Source for Chemistry and Related Natural Sciences

RÖMPP SciCapsules are a comprehensive information resource for both young and experienced scientists. RÖMPP SciCapsules offer well-founded answers to countless questions on chemistry and related disciplines in condensed units of key information.

RÖMPP SciCapsules contain over 42,000 highly relevant capsules based on scientific principles. Each individual capsule is originally written by an expert and is structured and categorized by subject area:

- Biotechnology and Genetic Engineering
- Chemistry
- Environmental and Process Technology
- Food Chemistry
- Material Science and Materials Engineering
- Natural Products

How Can RÖMPP SciCapsules Help Me?

RÖMPP SciCapsules are your reliable online source for chemistry and related natural sciences.

I am a school student and am passionate about science.

RÖMPP SciCapsules offer you valid information. You can be sure that it is neither fake news nor hallucinations generated by AI. All the content is compiled by scientists. You can quickly and easily find background information which will help you to learn and understand science.

I am studying life sciences or a major related to chemistry or biology.

With RÖMPP SciCapsules, you can discover citable facts and figures that you can use for your homework, papers or presentations. In addition, RÖMPP SciCapsules provide links to further sources that lead deeper into the topic.

I am teaching a STEM subject at a school or university.

Even as a teacher or lecturer, you cannot know everything by heart. RÖMPP SciCapsules can support you here as a reliable source where you can quickly look things up whenever necessary. RÖMPP SciCapsules also provide background knowledge, formulas and images that you can use for your lessons, as long as you cite the source.

I am a scientist and work in business, research or teaching.

RÖMPP SciCapsules offer you scientific content created by experts. You can look up facts, values and information and use them for your work in the laboratory. Because all the information is compiled and reviewed by scientists, you can cite RÖMPP SciCapsules in reports, diagnostic findings or protocols.
